

Handelsbanken Global Impact – Changes and Name Change

We continuously develop and adapt our fund offering to provide attractive and relevant investment solutions. On 15 April 2026, we will implement the changes outlined below to Handelsbanken Global Impact. These changes do not affect the fund's risk profile and will not result in any costs for you as a unit holder. You do not need to take any action as a result of this information.

The sustainability profile is being broadened

The fund invests in companies that qualify as sustainable investments and that also meet our criteria for so-called impact investing¹. Going forward, the fund will continue to invest in sustainable investments, but without the requirement for impact investing. This provides more investment opportunities while the fund continues to maintain sustainability as its objective.

New name

In connection with this change, the fund will change name to **Handelsbanken Hållbar Global**.

Other changes

The thematic management style is being removed from the fund rules, which creates a larger selection of companies to invest in within the framework of sustainable investments. In addition, new share classes in EUR with specific conditions for distribution are being introduced: A17 EUR and B17 EUR.

The updated fund rules have been approved by the Swedish Financial Supervisory Authority (Finansinspektionen). From April 15, you will find the Key Investor Information Document, prospectus and updated fund rules at handelsbankenfonder.se.

Sincerely,

Handelsbanken Fonder

¹ Impact investments: allocations in companies whose operations, products, or services, according to the Management Company's assessment, have or are expected to obtain a positive impact on one or more of the Global Goals.
